## internet radio interest

hi folks,

Ursula and I have been talking a lot about the possibility of offering some Internet streaming services, on a limited and test basis, to some applicants.

But before I can say yes for sure, I'd like to know more about what you folks had in mind.

Specifically:

do you have a sense of how many hours you can fill; ie do you want to start with 6 hours, 12 hours, etc.

do you have a sense of how much music you will be playing; ie 50% music, 25% music, etc.

I am sure there are other questions... but I'm tired right now (its 3:00AM EST - time to sign off)
